

PIC/D-35-60
17 March 1960

MEMORANDUM FOR: Deputy Director (Plans)
THROUGH: Deputy Director (Intelligence)
SUBJECT: Request for Meeting Between DD/P and
PIC Representatives to Discuss
Problem Areas of Common Interest

1. It is requested that your office schedule a time at which I might have the opportunity of meeting with you and a select few of our key assistants to discuss a few programs and problem areas of common interest.

2. Among the subjects I would like to review with you are the following:

- a. The Project OXCART Program --
Our limited data on this and your expectations of PIC in support of it.
- b. The ARGON Program --
Updating our knowledge of this and comparing our concepts of CIA involvement in it.
- c. The expected role of PIC in providing technical assistance to future DD/P programs in the light of current and past PIC support efforts.
- d. Current PIC planning for
 - (1) Space
 - (2) Personnel
 - (3) Equipment
 - (4) Research and Development
 - (5) New Organizational Concepts

3. I would not presume that our meeting should be a long one with all conclusions reached at one time. I would hope that it might lead us to a renewed appreciation of each others programs and problems as a basis for the increased efficiency to be expected from coordinated planning.

ARTHUR C. LUNDAHL
Director,
Photographic Intelligence Center
